and some of them are a little out of date, but overall my colleague still said it was funny. 5 of 9 people found the following review helpful. Genevieve Stamper Rocks This Boat! By A Customer Genevieve Stamper is by far the funniest and most entertaining person I have had the pleasure to read. At first, I bought this book for my little brother, but I started reading it and I couldn't stop! I COULD NOT STOP! I was reading until late late at night, like until 3:00 am in the morning. It was so easy to deliver these jokes to my little brother that I had him up all night too. Sometimes, now when I'm sitting at my desk at work, I think of these jokes and just start cracking up. When I'm sad, all I have to do is pull it off my shelf. Thank you Genevieve Stamper for your wonderful book, it has certainly lightened my life considerably and I recommend it with my whole heart to all those out there who love to laugh, need to laugh, or are just fascinated by today's technology. Wit, intelligence, and goofiness all in one! 4 of 7 people found the following review helpful. Kids will LOVE this book! By A Customer Miss Stamper taps right into the heart (and funnybone) of her audience in this hilarious collection. Kids will latch right on to these jokes, and will tell them over and over again. This book will become an instant favorite of any young person growing up in this computerized age.
