2 of 2 people found the following review helpful. not a book about creating videos on YouTube (some help on promotion)By ReaderDivaNINE pages of this book are about creating a great video. Those pages start on page 62, after a huge, boring and irrelevant section on the history of YouTube (including every lawsuit). The chapter on creating a great video doesn't actually tell you how to make your video good, just how to create upload.After p 71, the book is full of interviews of people you would only know if you were already very familiar with YouTube.If you're a YouTube fan, you might like this book. If you want step-by-step advice on creating a great video and driving traffic to it, this is NOT a book on creating better videos and promoting them.1 of 5 people found the following review helpful.
