Susan Granger has created a timeless manual for movie lovers old and new. There are movies in this book that after reading Susan's review I will revisit, and there are many more that I am looking forward to experiencing for the first time. Susan has a way with words that gets the reader excited about the movie experience. I found myself smiling or laughing at times remembering movies that I have seen or learning tidbits about actors and actresses that I have admired on the big screen. Her knowledge and

experience is refreshing a true Hollywood Insider. This weekend has been an exciting one reading all 150 Timeless Movies. I enjoyed every moment. 0 of 0 people found the following review helpful. Movie reviews that cater to every genre and interest! By Kaelyn In 150 TIMELESS MOVIES, Susan Granger's writing is engaging no matter what film she is discussing. Her honesty and enthusiasm for film is infectious, even in genres that I do not usually enjoy I still just wanted to hear more! Undertaking the herculean task of reviewing countless numbers of movies and compiling reviews that encompass a snapshot of almost a century, Granger has hit the mark that many reviewers miss. No matter what era or genre you enjoy when it comes to movies, you'll surely find a new favorite among 150 TIMELESS MOVIES. Even my husband, a self-proclaimed movie buff, was caught by surprise when he surveyed the film index. The likes of EX-MACHINA, LABRYINTH OF LIES, and LES MISERABLES came as new additions to his must-view list. Some of my personal favorite movies appeared on Grangers list as well, such as: BIG FISH, GALAXY QUEST, and LORD OF THE RINGS: RETURN OF THE KING. Even more surprising for me, not being the movie buff of the household, was discovering films that I might not have thought to view before. Notably, Grangers rave review of THE BEST EXOTIC MARIGOLD HOTEL prompted me to view the movie for myself and discover the humorous tale that I couldnt believe I had gone without! As a true testament to catering to every film genre, Susan Granger has even included childrens movies and animated family films like INSIDE OUT and FINDING NEMO. I chose to also dive into THE ADVENTURES OF TINTIN with my six-year-old daughter after reading this book and found it be an enthralling film for all ages. It is definitely a Spielberg masterpiece, just as Granger had lead me to believe. A staggering ninety-one years of filmography is covered within the pages of 150 TIMELESS MOVIES! I would recommend this book to anyone who enjoys movies because I feel confident that everyone can find something to enjoy within these pages that Granger has crafted. 0 of 0 people found the following review helpful.
