A Brief Guide to Oz: Going Over the Rainbow... 4*By RLM_918Had to have; it was a perfect "fit" for my always expanding [Wizard Of Oz] book collection and memorabilia!!0 of 0 people found the following review helpful. Fun look at the Oz cultureBy D7Goes through the entire history of Oz, from the original books to Wicked. A must for fans.

August 2014 marks the 75th anniversary of one of the best-loved films in the world, MGM's *The Wizard of Oz*, based on L. Frank Baum's beloved books. Since Baum's death there have been over 30 official continuations of the saga, as well as alternate takes on the central concepts, 17 movies with more to come (including a re-release of the original movie, in 2014), more than 20 different TV versions, and more than 15 stage adaptations, including the blockbuster musical *Wicked: The Untold Story of the Witches of Oz*, which continues to fill theaters worldwide. This Brief Guide focuses on Baum's life and the literary land of Oz, plus the films, sequels, remakes, stage versions, and myriad of reinvented stories.

The author takes the reader on an accessible and lighthearted trip down the yellow brick road, stopping at particularly interesting renditions and manifestations of Dorothy, the wizards, and the rest of the gang.--ProtoView
