I thought I knew everything there was to know about my favorite trilogy of all time. Wow, was I wrong! Do you know Marty McFly's phone number in the year 2015? Do you know Biff's home address? Neither did I, but I learned both in just the first few pages! Heck, I learned something mind-blowing in just the foreword alone! I won't spoil it but it involves the mall scene in part 1 when Marty first sees the DeLorean. If you even remotely enjoy this trilogy, or cartoon, or card game, or video game (I could go on and on!) get this book! You will not be disappointed! Every square inch of the Back to the Future universe is accounted for! I cannot imagine how much time had to go into creating it.1 of 1 people found the following review helpful. Great Book for the BTTF FanBy MylinMy husband is a huge BTTF Fan and he LOVED this book. It includes so much random information from not only the

three movies but also the theme park ride, the game, and even a pinball machine. This is a MUST for any BTTF fan.0 of 0 people found the following review helpful.
