Intrigue and Cover-Up for EveryoneBy DeverusThose wanting to touch base with all those questions which some of our friends may ridicule will find a neatly packaged collection of theories in ABOVE TOP SECRET. Moreover, its strong enough to gift wrap for those very same friends and challenge them to provide their own answers if they are able and they will be challenged.Nearly a decade later, the topics Jim Marrs discusses are still relevant to this day, and not just the perpetual ones regarding Roswell, JFK and God. In 2014, this work still reflects everyday interests such as chemtrails and natural resources; military planning and the Federal Reserve; drones and the Phoenix lights; and the Antarctic and our Moon, to name a few.The last chapter, however, What Will Happen in 2012, makes part of this work obviously dated but nevertheless interesting to reflect back, if not to reflect forward with what we now know.Great read.0 of 0 people found the following review helpful. Higher

ConsciousnessBy Mitylene KucAbove Top Secret by Jim MarrsGlobalization is a big conception not only for trade but the power involved including the International Debt. The World Trade Centre is about keeping relationships with other countries - lending out money through the IMF (International Monetary Fund). It could be that there is a plan to give the aliens in God an enlightenment through higher consciousness each one of us looks for praise and affection. Man does not live by bread alone but by the spirit of life itself. There is a fine line drawn between a bank with no valuable money and seeing UFO's over Phoenix, Arizona.
