Larry Gelbart : Abrogate before purchasing it in order to gage whether or not it would be worth my time, and all praised Abrogate:

This political comedy from acclaimed film, theatre, and television legend Larry Gelbart examines the long-term consequences of the Bush-era White House through an imaginary hearing investigating the abrogation of human rights under the Bush regime. Hillary Clinton is now president and, in an attempt to sift through the debris of the post-Bush regime, holds a congressional meeting to explore how the atrocities during the previous administration could have possibly happened. As the hearing progresses, some shocking truths about the infamous conservative leaders are revealed.
