Plans of getting in the industry? Read this honest 'info guide' on where to start, where you're heading, and tips and tricks to putting it all together. Great resource index as well, but please note it's not an all on one guide. It comes close, but you'll have to piece together some of the puzzle, but it shouldn't be hard with the info he shares.

I got conned into buying this book after reading all the fake reviews. Worst book ever. Apart from being very badly written with terrible grammatical errors, half of the book is a phone directory for hotels and sex shops from the 90s. The other half is double spaced and written with a huge font so don't be fooled by the number of pages.
The actual book is about 60 standard pages long and will teach you nothing about the industry. In fact it looks like it's written to make you fail as a director.
DON'T BUY IT. DON'T BE FOOLED by the 5 star comments, they **MUST BE FAKE**. Instead you can buy the book by Nick Shoveen which will actually teach you about the industry.

Very good book filled with nice to know and need to know information about the industry and tips on how to get ahead of the competition and make money with online porn. Contact names and addresses for distributors, production companies, cable companies and pretty much anybody else you might need to get your movie out there. Highly recommended.
