From Hal Leonard : Aladdin before purchasing it in order to gage whether or not it would be worth my time, and all praised Aladdin:

A great arrangement of A Whole New World included in this songbook By Page Turners Only This songbook has a really nice arrangement of "A Whole New World" and is enough for me to appreciate this songbook solely for this version. The other songs are okay, but I think some songs just aren't meant to be duplicated in piano form, unless accompanied by other instruments, so they are not as fun to play, as they don't flow so well, and sound a bit choppy for my liking. Although, I am a self-taught piano player, so maybe someone

with more experience could make these songs sound much better than my attempts.0 of 0 people found the following review helpful. do buy for it's worth it.By Helaman ScowI do wish i had done more research before buying the product for it is what it says it is but currently is too hard for me, i wish i had found something more suited towards me, even if it was the broadway version i think i would have enjoyed it a bit more than what i received. however if this is what you are looking for than i do highly suggest it because it is really a great product, it just doesn't fit what i was needing/looking for.0 of 0 people found the following review helpful.
