**Titan : Alien Covenant: The Official Collector's Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Alien Covenant: The Official Collector's Edition:

13 of 15 people found the following review helpful. Exclusively looking for an ALIEN: Covenant art book? Skip this. By justChill So if you're exclusively looking for an ALIEN: Covenant art book, skip this book and purchase The Art and Making of Alien: Covenant. This book is basically a collection of behind-the-scene commentaries and interviews with 13 of the main Covenant crews/casts and costume/creature designers. The casts all get their round to answer interview questions in the likes of "How does it feel to be on A:C?" "What's your character's role?" "How was it like working with Ridley Scott?" "What are your thoughts on \_\_\_\_\_ scene?" "What are your most memorable moments?" "How did you get involved with A:C?" etc. -- you get the picture. Art wise, this book has a handful of new

art pieces, I'd say 10 at most. Everything else is in the *The Art and Making of Alien: Covenant* book. Quality wise, the pages feel like pages from a magazine bounded together with a glossy hardcover. Good book to add for the cranky ALIEN collector. Pass this book if you're solely an art book collector. All-in-all, fun book and interesting to read the casts' thoughts and feelings about their roles in the film. I'm ambivalent about the film as I've mentioned in my review on *The Art and Making of Alien: Covenant*, and this book re-enforces my thought that ALIEN: Covenant (or maybe just Ridley Scott?) is a self-contragulatory film whose box office #s didn't quite reach equilibrium with its David 8 level of self aggrandizing hubris. 0 of 0 people found the following review helpful. First Printing Has Defective Covers By Tigger Arrived with the clear plastic film cover stock delaminating or peeling off the printed paper backing so badly I thought the book had been shrink-wrapped. Ordered a replacement but when the replacement arrived it too had the same peeling of the clear cover stock, I have returned both copies and will not reorder unless it makes it to a second printing. 0 of 0 people found the following review helpful. Very so so, nothing added to the Art and Making... Book. By Nico The book is just a resume of the bigger book *The Art and Making of Alien Covenant*. All the same pictures, and amazingly, there is a front pic of the alien totally out of focus. It looks like they made this book just to take you for a fool with the pre-sell button. Avoid and buy the bigger book.

*Alien: Covenant* is the long-awaited sequel to the Alien franchise, and *Alien: Covenant Official Collectors Edition* brings you everything you need to know about Ridley Scott's latest masterpiece! When a shipload of human colonists investigates an apparently habitable planet, they have no idea of the horror they are about to discover. But the biggest danger may perhaps come from a more unexpected source. *Alien: Covenant Official Souvenir Edition* brings you all you need to know about the making of the blockbuster movie, including stunning photography and exclusive concept art, and interviews with cast and crew including Michael Fassbender (*Prometheus*, *12 Years a Slave*), James Franco (*127 Hours*, *Rise of the Planet of the Apes*), Billy Crudup (*Watchmen*, *Spotlight*), and Katherine Waterston (*Fantastic Beasts and Where to Find Them*, *Steve Jobs*).
