Joss Whedon : "Alien - Resurrection" Script Book (The Original Screenplay) before purchasing it in order to gage whether or not it would be worth my time, and all praised "Alien - Resurrection" Script Book (The Original Screenplay):

0 of 0 people found the following review helpful. Nice addition to an Alien fan's collection. By Peter Haight Disregard the other fan's scathing review. Here's a modern review. Yeah, it's a scriptbook. All of the lines from the film are there (Or most of them appear to be at least.) As far as I can see there are no deleted scenes included in this book, it is probably from a late shooting screenplay, but it differs here and there from the final movie, only in minor scenes. It's

an interesting read. On another note, I found a copy on here probably 5-6 years ago, and I brought it to acting classes and we all performed scenes from the screenplay in class (mind you, I was in middle school so that was still pretty cool haha.)Should you buy this book? I mean, I guess if you're a big fan, it wouldn't hurt to have but you're not missing out on anything if you don't. It's an easy, quick read and it has a few pictures in the middle that are neat to look at. But, like I said you're not missing much.0 of 8 people found the following review helpful. You really don't need this book!By LibrarianBelieve me, I'm a true ALIEN-phile but I was disappointed by this book! I was looking forward very much to be finally able to buy so many official books on the new part of my favorite movie series! But then I got this: it doesn't even give you the final version of the movie script! In fact the dialogues in the novel by A.C. Crispin are much more accurate than this script book! It really isn't very great! OK, it has some nice photos from the movie, but if you want these (and more) I'd recommend you the "ALIEN: RESURRECTION-Postcard Book"! But if you really need to have everything about "ALIEN: RESURRECTION", just go ahead and order it!

The original screenplay of "Alien: Resurrection" which enables the reader to follow the action scene by scene, with the same dialogue and set directions as used by the cast and production crew.
