If you are an Aliens fan a must haveBy themonkeyA must have book, lots of on set photos, would've like a few more closeups and some clearer shots, but the book is still entertaining, Some behind the scenes info from an interview with Carrie/Newt and most of the new info comes from that. i loved it0 of 0 people found the following review helpful. Such a great book for Alien fansBy Vacheh ShahmoradianLove the Alien film franchise, especially Aliens. This book goes in depth with the wide variety of behind-the-scenes photographs. I highly recommend it to anyone who loves these movies. It's always such a treat for film buffs to go behind the camera and on set. This book delivers.0 of 0 people found the following review helpful. A great findBy Carrie GerberMy son loved this gift. He is a huge Alien fan, this book has fabulous photos and inside information. This was a great price for this book, it came sealed in plastic and in pristine condition.

To celebrate the 30th anniversary of James Cameron's groundbreaking science fiction classic comes the first, official record of the shoot. Through candid, high-quality stills we see the cast and crew at work, in costume, rehearsing, in make-up, and during filming. Some choice pieces of original concept art add greater context to the shoot and showcase the remarkable level of design. Also features insightful quotes from original interviews.
