**Jen Glantz : All My Friends Are Engaged** before purchasing it in order to gage whether or not it would be worth my time, and all praised All My Friends Are Engaged:

I am not one that read an entire book in a day and I was able to finish this one in an afternoon. I could easily relate to certain points, i.e. constantly being asked why I'm still single, and the comments the author had

on the topic are the exact way I feel! It was a real page turner, but it was disappointing that the book ended so quickly. 0 of 0 people found the following review helpful. Laugh out Loud Funny By Kelsea E Mulroy This is a must read! Jen's dating anecdotes are hilarious and very well written. Reading about her adventures in the dating world makes you think "thank goodness I'm not the only one who has blurted out "I love you" on the first date!" Thanks for reminding all us single girls that we aren't the only ones with countless terrible first dates gone wrong! 0 of 0 people found the following review helpful. Absolutely fabulous!! By B Growing up in the same town as Jen, it makes complete sense. She has a witty way with her words and makes you laugh. Being single is no fun but eventually everyone finds a Mr. It's a fast, funny and refreshing read for anyone especially in their twenties.

Chances are you've been there before: on an awkward first date where you find yourself stuck playing 20 questions with a person who has broccoli stuck in their teeth, or who spends half the evening whining about how their ex left them with an achy-breaky heart, or the one who shows up so on-the-rocks wasted that they end up passed out in their bowl of clam chowder before the main course arrives. All My Friends Are Engaged is a collection of dating disaster stories, packed with witty and relatable answers to the age-old annoying question of "Why are you still single?" All the stories embarrassingly belong to the author, Jen Glantz, who you may have seen before on Thought Catalog, USA TODAY College, Thethingsilearnedfrom.com, or JDate.
