From American Cinematographer : American Cinematographer Manual Vol. I before purchasing it in order to gage whether or not it would be worth my time, and all praised American Cinematographer Manual Vol. I:

0 of 1 people found the following review helpful. The BibleBy ChrisThis is the cinematographer's bible.0 of 3 people found the following review helpful. Four StarsBy Alfred M Carterit met my expectations.0 of 3 people found the following review helpful. Five StarsBy Haining Ligoood

Known as the "Filmmaker's bible," for several generations, one of the world's most widely used cinema reference books is more comprehensive than ever - moving into the digital side of image capture. Completely re-imagined to reflect the sweeping technological changes that our industry has experienced, this edition of the Manual is vibrant and essential reading, as well as an invaluable field resource, covering subjects such as: A comprehensive breakdown of digital technology terminology The explosion of prosumer cameras in professional use Previsualization 3-D LED lighting fixtures How to use the Academy Color Encoding Specification (ACES) An entirely new section on digital camera prep, and more!
