Aristides Gazetas : An Introduction to World Cinema, 2d ed. before purchasing it in order to gage whether or not it would be worth my time, and all praised An Introduction to World Cinema, 2d ed.:

1 of 1 people found the following review helpful. Review of Intro to World CinemaBy ShannonThis book was pretty good. There we're various different types and ages of film to study in this book. Although, It doesn't have basic things like a good index and no glossary. This was difficult for test since definitions were pretty vague in the book. The printing was also a bit off. There were parts of the book that were completely faded. Also, color pictures would be nice.0 of 0 people found the following review helpful. Five StarsBy David BeanUseful0 of 0 people found the following review helpful. The bookBy kristen chastainThe book was exactly what I needed for class and meets all the

requirements of my professor and myself. Thanks

Motion pictures are more than just entertainment. In film studies courses in colleges and universities worldwide, students and professors explore the social, political, technological and historical implications of cinema. This textbook provides two things: the history of film as an art form and an analysis of its impact on society and politics. Chapters are arranged chronologically, covering the major developments in film, like the advent of talkies or the French New Wave. Each era is examined in the context of several exemplary films commonly viewed in film studies courses. Thus students can watch *Birth of a Nation* and *Intolerance* while studying the innovations made by D.W. Griffith from 1910 to 1919. The scope is global, embracing the cinematic traditions of Asia, Latin America and Africa, as well as the ever important American and European output. Thoughtful articles from film scholars are included. The flexible structure of the text allows a variety of options for classroom use or personal study.

"Offers critical essays by film scholars...the best film text currently available...the quintessential study guide." --The Current "Scholarly...excellent." --The Midwest Book "The finest book to supplement an introductory film course designed to help college students better understand the significance of the motion picture." --Rogue Cinema
About the Author
Over a 30 year teaching career, the late Aristides Gazetas designed a graduate film studies program, wrote courses on international cinema and film history, and directed numerous productions of classic and modern plays. He lived in Richmond, British Columbia, Canada.
