Aristides Gazetas : An Introduction to World Cinema before purchasing it in order to gage whether or not it would be worth my time, and all praised An Introduction to World Cinema:

1 of 1 people found the following review helpful. Review of Intro to World CinemaBy ShannonThis book was pretty good. There we're various different types and ages of film to study in this book. Although, It doesn't have basic things like a good index and no glossary. This was difficult for test since definitions were pretty vague in the book. The printing was also a bit off. There were parts of the book that were completely faded. Also, color pictures would be nice.0 of 0 people found the following review helpful. Five StarsBy David BeanUseful0 of 0 people found the following review helpful. The bookBy kristen chastainThe book was exactly what I needed for class and meets all the requirements of my professor and myself. Thanks

This volume, a history of film as an art form and tool for social and political change, temporally extends from the invention of motion pictures to the impact of D.W. Griffith on Soviet montage, from postwar Japanese and German cinema to postcolonial third cinema.

"offers critical essays by film scholar the best film text currently available the quintessential study guide" -- The Current
About the Author Over a thirty year teaching career, Aristides Gazetas has also designed a graduate film studies program, written telecourses on international cinema and film history, and designed and directed numerous productions of Classical and modern plays. He lives in Richmond, British Columbia, Canada.
