From Brand: Indiana University Press : Animation: Art and Industry before purchasing it in order to gage whether or not it would be worth my time, and all praised Animation: Art and Industry:

Animation Art and Industry is an introductory reader covering a broad range of animation studies topics, focusing on both American and international contexts. It provides information about key individuals in the fields of both

independent and experimental animation, and introduces a variety of topics relevant to the critical study of mediacensorship, representations of gender and race, and the relationship between popular culture and fine art. Essays span the silent era to the present, include new media such as web animation and gaming, and address animation made using a variety of techniques.

Authoritative and a very enjoyable read. It's a good one. Get it. 11/16/2010 (www.cartoonbrew.com)
From the Publisher
An anthology of essential writings on animation.
About the Author
Maureen Furniss is founding editor of Animation Journal. She is a professor in the School of Film and Video at the California Institute of the Arts.
