**Jean Ann Wright : Animation Writing and Development, : From Script Development to Pitch (Focal Press Visual Effects and Animation)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Animation Writing and Development, : From Script Development to Pitch (Focal Press Visual Effects and Animation):

The art. The craft. The business. Animation Writing and Development takes students and animation professionals alike through the process of creating original characters, developing a television series, feature, or multimedia project, and

writing professional premises, outlines and scripts. It covers the process of developing presentation bibles and pitching original projects as well as ideas for episodes of shows already on the air. Animation Writing and Development includes chapters on animation history, on child development (writing for kids), and on storyboarding. It gives advice on marketing and finding work in the industry. It provides exercises for students as well as checklists for professionals polishing their craft. This is a guide to becoming a good writer as well as a successful one.
