The only problem I have with it, that has been a big influence, is the fact that the inside pages look like they have been printed by a regular printer. I really thought they would be blank, but they were more fill-ins than what I was hoping for. The print isn't the highest quality either. In the end, they weren't what I was hoping for, but they're not awful and might suit your needs. 0 of 0 people found the following review helpful.
