**From Kalmus Classic Edition : L'Organiste: Fifty-Nine Pieces (Kalmus Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised L'Organiste: Fifty-Nine Pieces (Kalmus Edition):

1 of 1 people found the following review helpful. Good choices for background music By John Deahl These pieces are not particularly challenging unless you don't like 6 or 7 sharps or flats. If you are looking for great music, don't buy this collection. These are easy pieces, easy to listen to, but there is not a whole lot there content wise. They make good preludes or interludes. I also would not play these in a dry acoustic as the legato required for these pieces to sound good, is quite advanced. 0 of 0 people found the following review helpful. Five Stars By FRANKIE W DEAL The book was in excellent condition.

The collection of 59 short works known as "L'Organiste" was written by Cesar Franck in 1889 and 1890 for the

harmonium and is most often played on organ. This score is an exact reprint of the original edition published by Enoch (Paris) in 1892.
