Frank Longo : Large Print Sudoku #3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Large Print Sudoku #3:

I was sadly disappointed when I opened the book to find One to Three stars of difficulty. That is not what I consider "Challenging". Five to seven stars is "Challenging". The large print is great, but that is the only positive note I can make on this product.0 of 0 people found the following review helpful. Humongous puzzlesBy elaineI like Frank Longo's puzzle books and have done quite a few of them. I've also had other large ring Sudoku books, but this one is just too large. I can't imagine anyone with poor enough vision to require this size of a page. Haven't tried any of them, put off by the huge size of puzzles.0 of 0 people found the following review helpful. Sudoku is great!!By Dr. JGreat Sudoku fun. I love these books as it keeps the mind going. Only problem is that I kept running out of pencils so I switch to pens. After a while, pens are fine. I always look for easy to hard as it makes me think even when I don't want to. I have worked a ton of Sudoku puzzles and love this book. I continue to buy more but also got one for my computer. However it's more fun working with pens as it more thought provoking.My only concern is that Sudoku is becoming lest popular and it's getting more difficult to find books. However, as long as they are available, I will buy them. I wish would extend their offerings, but

if there aren't enough sales, I can understand a lack of choice.

Strain your brain--not your eyes! With one puzzle on each page, large numbers, and plenty of space to write, these super-sized sudoku are easy to read but challenging to solve. Created by one of the world's top puzzlemakers, this third entry in our popular series is literally the next BIG thing in sudoku!

About the Author Frank Longo is a freelance puzzle creator who lives in Hoboken, New Jersey. He has had more than 3,000 puzzles published since 1993 and written many books for Sterling, including Master Ninja Sudoku, Beyond Black Belt Sudoku, and Beach Blanket Sudoku, as well as crossword books. He is known for being able to produce sudoku that are diabolically difficult yet fair, requiring the solver to use advanced techniques not found in typical newspaper and magazine puzzles.
