I wanted to get her an easy sudoku so she could just enjoy working on them. She also received a couple of other sudoku books as well and has mentioned more than once that although my book is the only one that says "easy" on the front, it is actually the most challenging of all of them... a little deceiving but still a nice book.The large print is great with one puzzle per page.2 of 2 people found the following review helpful. Fair productBy BarbaraNo instructions in the book. I bought this for a relative who is elderly and they had no idea how to use it.
