In the late sixties and early seventies, an impromptu collection of musicians colonized a eucalyptus-scented canyon deep in the Hollywood Hills of Los Angeles and melded folk, rock, and savvy American pop into a sound that conquered the world as thoroughly as the songs of the Beatles and the Rolling Stones had before them. Thirty years later, the music made in Laurel Canyon continues to pour from radios, iPods, and concert stages around the world. During the canyon's golden era, the musicians who lived and worked there scored dozens of landmark hits, from "California Dreamin'" to "Suite: Judy Blue Eyes" to "It's Too Late," selling tens of millions of records and resetting the thermostat of pop culture. In Laurel Canyon, veteran journalist Michael Walker tells the inside story of this unprecedented gathering of some of the baby boom's leading musical lights including Joni Mitchell; Jim Morrison; Crosby, Stills, and Nash; John Mayall; the Mamas and the Papas; Carole King; the Eagles; and Frank Zappa, to name just a few who turned Los Angeles into the music capital of the world and forever changed the way popular music is recorded, marketed, and consumed.

From Publishers Weekly Beginning in the mid-1960s, a string of successful rock bands emerged out of Laurel Canyon, a neighborhood of Los Angeles tucked away in the hills north of Sunset Boulevard. From the success of bands like the Byrds and the Mamas and the Papas, and singer-songwriters like Joni Mitchell and Jimmy Webb, Walker proposes Laurel Canyon as rock's answer to Jazz Age Paris. It's a plausible concept, but one he stumbles to elaborate past the length of a magazine feature. The journalist, who lives in Laurel Canyon, delivers strong material on some of the musicians he cites, particularly in early chapters about Crosby, Stills Nash and Frank Zappa, but offers little about other equally significant acts. Instead, he pads the story with lengthy sections on groupies and the music scene in other parts of the city, the Altamont concert (which was hundreds of miles away) and a digression on the history of cocaine. Furthermore, his enthusiasm for the Laurel Canyon legend leads to shaky critical pronouncements. If "the folk stars of the early 1960s were the first rock stars," for example, then what was Elvis? 8 pages of bw photos. (May) Copyright Reed Business Information, a division of Reed Elsevier Inc. He offers candid, insightful glimpses of Frank Zappa's bizarre, brief tenure in early cowboy movie star Tom Mix's old log cabin; the jangly social and musical interaction of the Byrds, Crosby, Stills, Nash, and Young, and Joni Mitchell; the rise of the singer-songwriter marketing label; and the scourge of casual cocaine abuse that pervaded the era and, soon, much of the rest of Woodstock Nation. He pads aplenty about tangential issues hardly unique to Laurel Canyon, such as, besides cocaine, those somewhat forgotten but then integral figures on the pop music scene, groupies. Nevertheless, he is pretty comprehensive about a pivotal place and time in American rock. If not quite essential to the rock shelves, the book valuably accounts for how, with the rise of the Eagles and their bland, strictly commercial ilk, the term mellow lost its luster as a pop-music -descriptor. Michael Walker catches the mood in the air, and gets it right... the interviews are wonderful . . . It's a beautifully-written document of that time and place when the personalities were as big as those stony dreams that fueled some of the greatest masterpieces in rock. Cameron Crowe Laurel Canyon captures all the magic and lyricism of an almost mythological geographical spot in the history of pop music. The book lovingly limns the story of a more melodious time in rock and roll where the great talents of the 60s and 70s cloistered together in a sort of enchanted valley populated by an all-star cast of characters, including Joni Mitchell, Jim Morrison, Mama Cass and Brian Wilson. Stephen Gaines, author of Philistines at the Hedgerow In Laurel Canyon, rock and roll history is urban history, California history, American history, global history through the songs and scandals coming from a canyon on the coast of dreams running through the labyrinthine center of our times.
