St Petr : League of Legends Mid Lane Mastery: A Master Player's Guide to dominating the Mid lane in Season 7 before purchasing it in order to gage whether or not it would be worth my time, and all praised League of Legends Mid Lane Mastery: A Master Player's Guide to dominating the Mid lane in Season 7:

3 of 3 people found the following review helpful. Excellent! By Daniel N. Wallace This is an excellent, well written how to master Mid Lane on League of Legends. I read this book twice so far to prepare for Season 7 and I learned a ton from it. Everything written is very practical, exact and applicable. I appreciate the direct instructions and clear explanations of every idea. I can tell a lot of thought has been put in constructing this material. Anything I can think of related to the mid lane is covered here extensively- wave manipulation, roaming, trading, individual runes and masteries, how to get more ganks from the jungler, even the mental attitude part and how to handle trolls. I actually feel excited right now to start practicing all of this into my own gameplay and rank a lot higher this season. Thanks for

helping. 1 of 1 people found the following review helpful. Really good
By Iain M. I'm in Challenger and still this book has been helpful its great because it gave me tips on my worst role and helped me learn how to play mid like someone actually in Challenger not in gold 42 of 2 people found the following review helpful. Very good book, helps you learn about many of the tactics needed in order to climb the ladder. tactics like pushing, wave control, vision, roaming ect, if you want to become a better mid laner i deeply recomend you to get this book

As a Master Tier player on both EUW and EUNE servers that cares deeply about the state of League of Legends, I had enough of the lack of high quality educational material about the game. So about a year ago, I used my experience as a real life teacher and high elo player and wrote what turned out to be the best selling ebook about improving at League of Legends on Amazon for Season 6 - 30 Days to Diamond. By the way - an improved, enriched and even more detailed version for Season 7 is out and it's called 21 Days to Diamond and Beyond. Ever since the book delivered on the results it promised, I've received dozens of requests from players asking me to write separate, very detailed books about the roles of ADC, Mid lane, Top lane and Jungle that would be adapted for Season 7. Due to the support I got from my dear readers, I felt motivated to roll up my sleeves and produce the best of my work as a results-oriented League of Legends coach. After countless hours of hard work, I am proud to announce that each of the books people wanted me to write is now available to anyone that is open to learning and is willing to get to that next level as a player in their favorite role. So why is League of Legends Mid Lane Mastery worth your time? If you are still paying attention, I am assuming you are an ambitious, competitive person with a winner's mindset that is interested in acquiring all the necessary game knowledge that will help you improve massively as a Mid lane main. Here is a list of the contributions that this book will make towards your current level of game knowledge: - You will learn what the Mid laner's role and responsibilities are, and there are a lot of specific instructions on what you can do to develop each quality, especially towards the end of the chapter. This includes map awareness, leadership, shot calling and more. - You will learn how to model your champion pool for Mid lane (yes, there is a best way to do it) and how to overcome the disadvantages of facing lane counters. - You will learn the optimal Runes and Masteries setup for each popular Mid laner. - You will learn the intricacies of what you can do to acquire outstanding farming skills. - You will learn the wave management techniques for Mid lane which will help you build a massive advantage over your opponent. - You will learn all you need to know about vision control, which includes the best warding spots for Mid lane on both sides. - You will learn the various ways in which you can influence your Jungler to gank for you more often and give you the Blue Buff every time. - You will learn all you need to know about dominating your trades and how to trade against short-ranged, medium-ranged and long-ranged opponents. - You will learn multiple other principles to dominating the Mid lane (refer to the table of contents). - You will learn the various approaches you should use to extend your advantage and carry your games to victory. - You will also learn all the details you need on how to play when you are behind in lane. - Lastly, you will learn the practical steps that you can take to cultivate an unstoppable winner's attitude that will also help you have more fun with the game. - There also are a lot of general game knowledge golden nuggets thrown all throughout the book to help you in your journey further. I know this is a big list of things and to some of you it might seem intimidating, but I promise you that once you learn and apply the information in this book in your own gameplay, you will transform completely as a player. Are you excited? Best of luck on the Summoners Rift!
