Jason Young : Legaia 2: Duel Saga (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Legaia 2: Duel Saga (Prima's Official Strategy Guide):

3 of 4 people found the following review helpful. proofreader, anyone?By A Customer Besides the poor graphics, the much-touted arts list features at least 3 typos. If you're going to rave about your inclusive list, at least spend some time proofreading. Couldn't they have afforded an editor? And...why can't anyone get this...if you're going to list weapons and armor, why not do it by listing them in order of strength instead of alphabetically? If one of the purposes in an RPG is to strengthen characters, shouldn't the lists reflect that? Duplicate explanations of strategy (sometimes in the very next paragraph) seem to me to be unnecessary filler. Attention could have been given to explaining conditional aspects of the game (availability of sidequests, etc.) In short, a guide should give you what you need to thoroughly explore the game. It should not repeat the obvious information available simply by viewing the cinematics or listening in on conversations in camp (things you do in the game regardless) 0 of 0 people found the following review helpful.

Excellent guide. By Travon Excellent. My only issue is that there are some minor mistakes, like with moves on the art list, and names of some creatures. Otherwise, it's an excellent guide. 0 of 0 people found the following review helpful. He liked it. By Rachel Stilson Got this for my brother. He liked it.
