0 of 0 people found the following review helpful. To be blunt; this guide is bad. By R. Hanning I literally can't even write a full length review on this guide, because it isn't even a full length guide. It's 112 pages. That's the biggest red flag. Beyond that it's "side quest" section is just a chart stating where the quest is, what you do, and what the reward is. There is literally NO depth to it whatsoever, even for the more complicated side quests. It's actually kind of funny how bad this guide is, considering in the "stardust chart" (Yup, another chart) it has 4 screen shots under it depicting the "harder to find" locations and literally right next to each other are two of the EXACT SAME pictures. Like, nothing is different. Same picture twice, within an inch of each other. This was obviously a pretty rushed guide for Prima and a lot of effort wasn't really put into it. You'd be better off looking up all your information online. Seriously. 0 of 0 people
