A great assest to any SF LibraryBy Bennet PomerantzA few years ago, I was asked some of my best SF stories at a Writer's workshop. After I rattled off tittles like Bradbury's There will Come Soft Rains, Heinlein's Destination Moon, Wells's War of The World (which most knew-Thank God), most seem dumb struckWhen this volume of classic SF radio stories came out, I thought it was a perfect blending of Old radio with SF.Yes, the old radio style work in recapturing these tales on CD with clear masters and very little popping and fizzing old radio has.So those fans of SCI FI medioum , who remember Sci Fi which came before Classic Star Trek or Classic Star Wars, this is your collection! A great audio volume for any one Science Fiction Library--Bennet Pomerantz, AUDIOWORLD
