Since then I have played games on various platforms, most recently my Wii. The Lego series of games have been great fun, and this one is no exception. I

had kind of a rocky start with it, and needed tech support the first time I used the Compass as Jack Sparrow (hint: you have to use the Compass the first time when you first enter the beach area, right next to the metal bars leading to the second floor of the veranda area. If you use it at the compass rose on the sand, it didn't work -- for me at least!). There are so many cute little bits in this game, plus some really challenging puzzles, although I found I didn't really need the Prima Game Guide as much as I did for a few other Lego games. If you enjoyed the PotC films, you will enjoy this game! 0 of 0 people found the following review helpful. I love this game and was getting frustrated that could not find things. Yes could use gamefaqs.com, but when your pc is in a different room then your console, it makes it kind of hard and a pain. This is exactly what I was looking for.
