As the title suggests, it is good for beginners between the level of piano grade 2 to 3. I have another Les Miz piano book but it's too advanced and difficult to play, and I gave up practising halfway. This book contains all the major favourites of the musical for hours and hours of playing and enjoyment. I bought this for my 9-year-old daughter and she could start playing right away. 0 of 0 people found the following review helpful.
