7 of 7 people found the following review helpful. good for beginner or intermediate violinistBy nalaundiI have the piano easy and regular version of this book. I also grew up with these songs. I know them by heart. I like the format of these pieces in the violin version as they are all only on one page (no page turning) no piano part in this book. I wasn't expecting it to have it. what I expected and hoped it to have was the words. There are no words in this book. just the music. oh well. if it had words.. I would have given it a 5 star rating.1 of 1 people found the following review helpful. Impulse purchaseBy Amanda BoxI bought this shortly after seeing the movie for the first time, and haven't been disappointed. I've had a lot of fun playing the songs. As a beginning violinist, I appreciate that the songs are of varying

difficulties. So even though some of the songs are too difficult for me at this point, there's still several that are within my abilities. 0 of 0 people found the following review helpful. Sounds just like the movie and good for moderate violinists
By Casey S. I bought this for my wife and she picked it up the day it came and started playing. She is advanced but played it almost perfectly so I would think it would be good for a little more than beginners. The music sounds spot on to the new movie soundtrack.

(Instrumental Solo). 13 songs from the classic musical, including: Bring Him Home * Do You Hear the People Sing * I Dreamed a Dream * A Little Fall of Rain * On My Own * and more.
