The songs are harder than the regular books at this level, but they are so fun that every kid has risen to the challenge. They can learn concepts ahead by using the CD and trusting their ear a bit. There may be a few unfamiliar concepts, but if you explain it quickly to help them get the song, you'll find that later when it comes up in the lesson book, it's so easy for them because they already "know it." For example, some of the

songs have sharps, which aren't introduced until midway through the lesson book. But i just show them what note to play. Then when they get to sharps in the lesson book, they feel like experts already and can grasp it on a deeper level. Great for boosting students' ability, and great for student performances. Highly recommend. I use this as much as possible.0 of 0 people found the following review helpful. (Faber Piano Adventures ). The second in a series, Gold Star Performance Level 1, is a challenging collection for the late-elementary pianist featuring changing moods, keys, and hand positions. Like the primer level book, this collection may be used as a "graduation book" to improve artistic, technical, and rhythmic skills before advancing to the next level. The long awaited addition to the Piano Adventures series features songs and pieces like: Bullfrog Blues \* Monster's Midnight March \* Little Bunny Foo Foo \* Mouses or Meese \* and more. Includes online access to Gold Star Performance audio for both listening and play-along.
