I just bought this for one of my students and I was shocked after paying FULL PRICE, that the item was 99% filled in! What a disappointment, and WHY on EARTH would someone sell a workbook that was already filled in for FULL PRICE. I know for next time to be careful if it isn't a prime item. I love Faber books, so the book itself gets 5 stars.3 of 3 people found the following review helpful. JajhI should have ordered the Primer book - I had to make up those lessons myself. My grandson is 11, and wants to learn to read music. This is a good fit for him. Not too challenging, but it's giving him the basics of note reading, with easy songs all along the way. I personally like it.

(Faber Piano Adventures). The 2nd Edition Level 1 Lesson Book introduces all the notes of the grand staff, elementary chord playing, and the concept of tonic and dominant notes. Students play in varied positions, reinforcing reading skills and recognizing intervals through the 5th. Musicianship is built with the introduction of legato and staccato touches. This level continues the interval orientation to reading across the full range of the Grand Staff. The 5-finger approach is presented here in a fresh, musically appealing way.
