Have listened to the accompanying CD many times over -- have found this to be so helpful in giving her an idea what the piece isBy ISheen19Bought this for my daughter who is taking piano lessons--she LOVES all the songs in this book. Have listened to the accompanying CD many times over -- have found this to be so helpful in giving her an idea what the piece is supposed to sound like. Oftentimes I'll have to prompt her to work on her other lesson books because she prefers to spend time on this book instead!1 of 2

Most interesting songs of all the methods.0 of 1 people found the following review helpful. Five StarsBy R. PayneI do like this series for my students.

(Faber Piano Adventures). Features new piano solos for the mid-elementary pianist from Nancy and Randall Faber, some with optional teacher duet parts. These pieces present a broad range of styles to enhance the young musician's awareness of classical, jazz, folk, and impressionistic sounds. Repeated listening and play-along with the included online audio will familiarize students with diverse musical textures and sonorities, including a piano sonatina with orchestra. Contains songs and pieces like: I Love the Mountains * Little Ghost's Recital * Snappin' Harriet * and Grandpa Leprechaun.
