I find the Faber Faber Piano Adventures Lesson Book to be thorough with regard to well-rounded piano instruction. Their newer version duplicates some of the supplemental materials that I provide (i.e., pentachords, scales, I-IV-V chords), which my students learn far in advance of the book's timeline. By the time most of my students complete level 2A, they have memorized all the major pentachords and scales and are working on the minor keys. Still, for under \$8 per lesson book, this series is affordable and packed with songs that my students enjoy learning. I appreciate the massive efforts of Faber Faber to make piano

study fun and steadily progressive.0 of 0 people found the following review helpful. online extra musicBy Sarah Rockgreat collection for learning. the extra music sheets are online not included as a book copy.0 of 0 people found the following review helpful. Five StarsBy L. AllenGreat piano series! I have other lesson books, but Piano Adventures is my favorite!

(Faber Piano Adventures ). The 2nd Edition Level 2A Lesson Book follows Piano Adventures Level 1. The book opens with a Note Reading Guide and an introduction to eighth note rhythm patterns. Students work with 5-finger transposition, functional harmony, and musical phrases. Exploration of C, G, D and A major and minor 5-finger positions builds on intervallic reading skills that were introduced in the earlier level. Appealing repertoire reinforces key concepts and encourages students to explore musical expression through varied dynamics and tempos. Selections include well-known classics from the great composers and original compositions.
