The theory books are great reinforcement for the concepts introduced in the lesson books. FYI, I was unsure what edition we would receive from because although the description says this is the second edition, the book cover shown on the listing does not say "2nd edition." I did purchase directly from and we received the 2nd edition, which was what we needed.0 of 0 people found the following review helpful. (Faber Piano Adventures). The hallmark of the revised Level 3B Theory Book is the synthesis of 3B concepts: major and minor scales, triads and chord inversions, and 16th-note rhythms are reinforced with writing, composing, sightreading, and ear-training exercises. Students will enjoy composing a tune for a lead sheet, harmonizing melodies, identifying triad inversions, and creating their own 16th-note rhythms in various time signatures.

About the AuthorThe husband and wife team Nancy and Randall Faber are internationally known as authors of the Piano Adventures teaching method and over two hundred publications for the piano. They recently founded the Faber Piano Institute in Ann Arbor, MI, where they live with their daughter Vivian. Nancy Faber, who was named "Distinguished Composer of the Year" by the Music Teachers National Association, enjoys a busy schedule of commissions for the concert stage in addition to her educational composing. Recent commissions include "The Snow Queen" for narrator and orchestra, "The Picture My Imagination Has Painted" for Flute Quartet and Piano, and "Trio for Flute, Saxophone and Piano". Her pieces have been heard on U.S. public radio and network television. She studied composition with Joan Tower, William Albright, and British composer Nicholas Maw; piano studies were at the Eastman School and Michigan State University. Randall Faber has toured Korea, Taiwan, Canada and the United Kingdom. He was master teacher for both the World Conference on Piano Pedagogy and the National Conference on Keyboard Pedagogy. He gave recitals in St. Louis, Ann Arbor, as Convention Artist for the North Dakota Music Teachers, and performed as Visiting Artist at the University of Michigan, University of Southern Mississippi, Saginaw State University, and numerous universities throughout South Korea. He was featured clinician for the Nebraska Music Teachers, the Florida Music Teachers and the Pennsylvania Music Teachers Convention, and recently presented his research at the 9th International Conference on Motivation in Lisbon, Portugal. Dr. Faber holds three degrees from the University of Michigan and a Ph.D. from Vanderbilt University. The Fabers advocate piano study not only for personal expression and performance success, but also as a vehicle for the student's creative and cognitive development. Their philosophy is reflected in their writing, their public appearances, and in their own teaching.
