DuBoisI really enjoy teaching with the Faber books in addition to other methods I use. No matter what the level, this series focuses on getting my students to read their music more quickly. There's a strong base in music theory and I find my students play from the grand staff a bit more quickly. The pieces tend to have a bit more challenge to them, depending on level, and I've seen very good results using these books. From lesson books to theory and technique and great solo pieces, I recommend these as a piano teacher. move up to the next level. By Howzatar I bought the set: - Technique Artistry Level 4 Faber Piano Adventures Second Edition - Level 4 - Theory Book: Piano Adventures - Level 4 - Performance Book: Piano Adventures - Level 4 - Lesson Book: Piano Adventures. Some of my kids have been playing now for about 2-3 years now and it was time to upgrade one of my younger kids to this level. We want them to have their own set without any markings in them to start fresh. It has been a good set for them to learn with. The format is easy enough to follow and has a lot of options to keep them interested in the set. 0 of 0 people found the following review helpful. Great Books By J.W. Our piano student uses the books and we really like them. I love that I can order the next set online when we need it. These were recommended by the piano teacher.

(Faber Piano Adventures). The new Level 4 Technique Artistry Book combines two elements of pianism: technical skill and artistic performance. This smooth, integrated approach builds basic elements of piano technique, always directed toward an artistic goal. Four powerful exercises called "Technique Secrets" help intermediate students build a strong technical foundation. "Artistry Magic" pieces at the end of each unit explore expressive playing.
