**Editors of Life : Life: Picture Puzzle Animals** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Life: Picture Puzzle Animals:

1 of 1 people found the following review helpful. nice pictures but half the book ruined with pen marks! By Ale Sosa This book has nice and funny animal pictures! The problem I bought a used copy, and the person that used it before me, marked the answers with pen on each page! Half the book is marked this way, which completely ruined each challenge, since you cannot help but notice the big pen circles marked on each picture!!! If you find something underlined on any book, as when you borrow it from a public library, it doesn't really matter, but with these picture puzzle books, when someone marks the pictures, it completely ruins the fun! If I had known in advance, I never would have bought this copy. Suggestion: Please, when you buy this kind of books, use a crystal clear plastic sheet on top of the page, and mark the answers with one of those white board markers that can be erased with a dry cloth. That way, you

keep track of your scores, but when you finish you do not ruin the game for the next person that uses the book!0 of 0 people found the following review helpful. Very entertaining.By SumieMy mother likes this book very much.0 of 0 people found the following review helpful. Five StarsBy dkgood
