Dr. Stan Monteith, Dr. Russell Blaylock : Life-Saving Health Secrets (4 One Hour Interviews) before purchasing it in order to gage whether or not it would be worth my time, and all praised Life-Saving Health Secrets (4 One Hour Interviews):

"Life-Saving Health Secrets" - Are we being poisoned? Will there be another biological attack on America? Are we under attack today? Why isn't our government making preparations to protect us? What can we do to protect ourselves, our families, and our friends? This tape set addresses these and many other questions. It should be used in conjunction with Dr. Blaylock's book, "Health and Nutrition Secrets That Can Save Your Life."
