This book covers a wonderful variety of some of the most popular movies ever shown, and tests the reader's ability to recall various aspects of it. The first night we got the book, we took turns reading the questions aloud, challenging each other. We couldn't put the book down for over an hour! Book would be great for parties, taking on long trips in the car, train....a great gift for all ages.2 of 2 people found the following review helpful.

By Samantha This book is very well written, with a very wide range of questions. No matter what your taste in movies is, there are multitudes of trivia questions to satisfy your craving! I would highly suggest this book for anyone. The entertainment is endless!!!!

The year is 1989. A crowd that numbers in the hundreds has gathered in the parking lot of the Hill Valley High School to welcome home its favorite alum - Marty McFly. His band, The Pinheads, have returned to their old stomping grounds for the last gig on their hugely successful Rock till you Drop tour. Among the familiar faces is Marty's old friend, Dr. Emmett Brown, who has come bearing gifts - eight amplifiers that dwarf his prototype. Anxious to see how loud they can get, the band plugs in for an impromptu jam that liter-ally blows away the crowd. Fortunately, no one is seriously injured. But there's more than a few shattered eardrums. What would Marty have been referring to if he sarcastically remarked, "How many years is it going to take you to figure out this 'overload' problem, Doc? If you need another hit on the head I'll be more than happy to oblige. Want more? We know you do. Lights, Camera, Trivia approaches each set of questions (an average of 40 per film) from a unique angle to challenge even the most hardcore fans. From the original King Kong to Scarface, Re-Animator and episodes IV-VI of the Star Wars trilogy, all the classics are here. The days of "Old School" movie trivia are over. Come on in and judge for yourself.
