From Brand: Alfred Music : Liszt -- Sonata in B Minor (Alfred Masterwork Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Liszt -- Sonata in B Minor (Alfred Masterwork Edition):

1 of 2 people found the following review helpful. measure 378 By Cha KI can't believe an error like this has been made in Alfred's edition. The chord's top notes are missing and the second top notes have assumed the length of top notes. These two measures sound completely absurd if played as written. I'm giving this two stars just because the rest seems fine mostly although I feel like I've noticed a few more errors. But really that chord misplacement completely threw me off.

Romantic piano virtuoso and composer Franz Liszt's Sonata in B Minor is a monumental contribution to piano

literature. This critical edition addresses sources, discrepancies, and performance issues (tempi, pedaling, fingering, style, interpretation, and technique). Also discussed are Liszt's life, career, and background on the historical, cultural, and social environment that influenced the composer.
