The opinions below are my own.\*\*Great for very young kids just starting out. My 10 year old could do all of them pretty much instantly. More appropriate for my 5 and 7 year olds,

but even my 7 year old got the idea pretty quickly. Would be slightly better if the difficulty increased some as you went further in the book, especially since it's geared to children, as 100 puzzles at the same difficulty level get boring/repetitive sometimes. 0 of 0 people found the following review helpful. Excellent gift for your kids! By Alana This book is so good! I bought it for my niece (10) and we both started playing right away and couldn't stop! Addictive! I am not sure who loved it more - her or me. The illustration is great! Everyone at school asked her about the book. Oh, did I mention that just like Pokmon she couldn't stop and took it with her to school?! From this level - straight into the next "Hard Sudoku"! Thank you so much for this book! 0 of 0 people found the following review helpful. Little Wizards Sudoku: Easy Sudoku By Sara Howard This is a great little puzzle book for all ages. It is a Sudoku book. I love this easy book. It is a good start for Sudoku fun. I think adults will enjoy it too. Can't wait to buy more..... Thanks for starting new puzzle fun.

Would you like to help your kid to advance his logical skills and maintain the winner's attitude while solving the brain-testing puzzles? If so, this book will be your kids perfect take-anywhere companion. With 100 Sudoku puzzles guaranteed to sharpen the growing mind and keep the little one entertained, this book is a real treat for any kid and for any caring parent. The serial Little Wizards Sudoku consists of two books with the puzzles of a different difficulty Easy Sudoku and Hard Sudoku with answers. For kids ages 7 and up. The author - Naka Yama - puzzle solving enthusiast and the author of brain-training books.

About the Author Naka Yama is a pen name of the westerner who happens to be a fan of Japanese culture. He can spend hours learning how to succeed in Japanese calligraphy with the help of the goat hair brush and watered ink while listening to the background melodies of "shakuhachi" - weeping Japanese flute. Another time, you can watch him in awe, blending a mixture of micro elements that boost the growth of the Zen mini garden on the window sill. Anyway, most of the time, you can catch his special mysterious look while he is trying to solve a sophisticated Sudoku puzzle. And that is why he used to introduce himself as a puzzle solving enthusiast and the author of brain-training books. What he loves to do the most is to create Sudoku puzzles of different levels of difficulty. He is not afraid to call himself a "puzzles addict", and he is always keeping a hope that "Sudoku passion" will be with him for the rest of his life.
