An unknown WarShip's sudden appearance deep in the Clan Occupation Zone may jeopardize a spying mission vital to the Inner Sphere. The player characters must investigate the mysterious arrivals to determine whether they are friends or deadly new foes -- while staying one step ahead of the Clans! Living Legends is a roleplaying adventure for use with MechWarrior, Second Edition. Set in the BattleTech universe of 3057, the adventure draws the player characters into a centuries-old mystery. The adventure includes a sourcebook section describing life in space and the various systems on board a WarShip, including detailed deck plans.
