**H. F. Ullmann : Logic Puzzles (Brainmatics)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Logic Puzzles (Brainmatics):

Explore your brain discover the list for logic puzzles! Whoever said that all math was grey theory was completely misled. The famous game-inventor Ivan Moscovich shows that logic mathematics are stunning, fascinating, anything but boring! BrainMatics will provide abstainers as well as enthusiasts with loads of puzzle fun from the easay to the big problems of the ages Make the acquaintance of historical celebrities of logical mathematical thought like Einstein Archimedes look forward to hours of serious fun.

Ivan Moscovich's gorgeous puzzles tickle the senses as well as the intellect. BrainMatics contains months' worth of elegant play. --Will Shortz, Crossword Editor, The New York Times
