J. R. R. Tolkien : Lord of the Rings (5 Volume Set) - Trilogy, Hobbit, and Silmarillion before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lord of the Rings (5 Volume Set) - Trilogy, Hobbit, and Silmarillion:

By John H Gruver EDITED 16/05/08 (in single quotes) Bought the LoTR, Hobbit, and Silmarillion from Easton Press in one set (not easy to find here, BTW). Love the books, love the Easton Press printings. The bindings are good, the covers substantial. One thing: has anybody translated the runes (futhork), which are the "moon letters" on Thorin's map, on the covers? You will notice, if you do, that the word, "when" is terribly screwed up. On older printings, it's: "I I W E N". On the latest printings (which I own) it's 'corrected to' "H W E N". BTW; The Easton Press The Atlas of the Middle-earth is the best, most legible copy I've ever owned/used. BTW: despite my purchase being recent, the rune error is the original, not the "fixed". Edit added: I purchased all mine directly from Easton Press. 16 of 18 people found the following review helpful. Great quality. By Lisa Shea I adore Tolkien and own many copies of his books. But this is the copy I keep next to my desk and look at daily. The set is simply gorgeous. The leather is high quality and thick. It's not just a thin veneer. The gold lettering shimmers in the light, as does the gilded edges of the pages. There's a lovely ribbon book-marker built into each book. They come with two-color maps that unfold so you can follow along with the voyages (or mount the map on the wall). Definitely one of those sets that will get treasured for decades and passed down. So there are several maps, and several of the books include a full-color painting in the first few pages to highlight the content. Well recommended for lovers of Tolkien. 1 of 1 people found the following review helpful. Surprise not listed in description. By daniel shaw I own these books. What is not mentioned in the description is that these books, or at least

mine came with fold out maps separate from the books. I found these books at a yard sale, still wrapped. I only paid twenty bucks for all five books. I guess the seller did not know what they had.
