Avery Cardoza : Lottery Super System before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lottery Super System:

4 of 4 people found the following review helpful. 3-Stars (It's OK) By DavidOK as a basic intro or refresher. Gail Howard goes into more detail in her books and gives more insight on how to pick numbers (but I still haven't won a jackpot). My main complaint is that it needs a good proofreading. For a math lover, Cordoza sure isn't consistent with

the numbers when giving examples of how to apply some of the strategies. This is a blatant marketing pitch for the web site. Re: web site The web site doesn't appear to be working properly. It fails to send out an email confirmation notice, thereby you can't complete the registration process and get complete access to the site. Then it states to contact them for problems but gives no information on how to contact them. I hope others have been more successful than my two failed attempts to register. Fix it Mr. Cardoza, please. 5 of 6 people found the following review helpful. Don't buy Cardoza's book. By JDCI purchased this book though on May 3, 2015, and received the item on March 16, 2016. did not explain to me the reason for the delay in either publishing or shipping this book. Nor was there an explanation provided to me from regarding why the book's author changed from the mysterious, intriguing "Professor Zing" to the self-professed expert on predictive randomness, Avery Cardoza. Truly, I wish the wait for this book would have been worth it. Alas, readers, hold onto your money, and read on. This book, like so many other books written on the subject of how to beat the lottery fails due to one overwhelming, fundamental, frustratingly simple reason - because the author cannot back up his claims with any evidence that his own gaming strategies have succeeded in winning either him or any of his clients ANY lottery prize, let alone the jackpot. Cardoza's gaming strategies are not new. And, you can find similar material mostly relating to the use of lottery wheels - in the vastly superior book "The Only Way To Win At Lotto" by Robert Serotic. While Serotic claims see page 4 of his book - to have won 9 lottery jackpots, he too fails to support his claims with any skerrick of evidence of the success of his gaming theories. So, the take away messages from this review: don't buy Cardoza's book; go online where you can find superior material on lottery playing theories for free; invest your money on a quick pick. And, above all else good luck! 0 of 0 people found the following review helpful. Two Stars By Gary Wiley Fun to read and daydream with but overall useless.

This book is written for lottery players looking to improve their chances at winning a million-dollar life-changing megajackpots while collecting smaller jackpots along the way! This book is going to show players how to increase their chances of making millions of dollars playing lottery and lotto and reveal important secrets that every successful player must know to win jackpots in any game in the U.S., Canada, or anywhere else in the world. Lottery Super System is the most complete book ever written on beating lottery and lotto games. Many of the strategies and secrets revealed in this book have never been published anywhere before, either publicly or privately. Players will learn how to create chosen numbers and work with all the powerful Level I core strategies, the Level II strategies with the mighty keys, and how to combine these two levels into juggernaut Level III strategies to win jackpots. They'll also learn how to use dual-master and rotating-master keys to beat multi-state games like Powerball and Mega Millions, plus specific strategies to beat three-ball and four-ball lotteries, five-ball and six-ball lotto, and how to use wheels to optimize their best-performing numbers. Players can win money at the lottery. Many millionaires out there will attest to that. The reader can be one of the lucky people who will follow these strategies right to the jackpot

About the Author Avery Cardoza, the world's foremost authority on gambling and a million-selling author of more than 40 books and advanced strategies, is the founder of Cardoza Publishing (publisher of more than 200 gaming titles, 10 million copies sold) and owner of the legendary Gamblers Book Club in Las Vegas. Millions of gamblers have learned how to play and win money at gambling following his no-nonsense practical advice. Cardoza has been studying numbers, and winning systems since he was five-years old. He has developed the most powerful lottery software and strategies ever formulated including the only systems using powerful Level II keys such as kings, wizards, and courts, and Level III advanced strategies found nowhere else. Cardoza is one of lotteries foremost experts on predictive randomness, the heart and soul of lottery strategies that have won players millions of dollars in jackpots. The result of his lifetime efforts in mathematics, gambling and random occurrences, Lottery Super System, is the most authoritative book on beating lottery and lotto that has ever been written.
