Wish it was longer By Kingfisher55 We took a good old fashioned family road trip out west last summer, and I bought this CD which I figured would be perfect. The stories were fun, but the CD was so short, when you're on a road trip, you need something that will last you more than just a few miles. But NPR can do no wrong in my book, and we all enjoyed the stories. Not a bad purchase when your only complaint is that you wish it lasted longer! 0 of 0 people found the following review helpful. Five Stars By Deena J. Hahn I have enjoyed listening to it, and find it to be a great and interesting stress distraction. 0 of 4 people found the following review helpful. Roadside Attraction Stories - - keep looking By Geo Nearly impossible to find stories within the location of travel. Repeated attempts to use this were frustrating. Threw it away.

Prairie Dog Town in western Kansas. The Elvis Is Alive Museum in Wright City, Missouri. The Velvet Museum (Velveteria) in Portland, Oregon. A 13-foot Styrofoam scale model of Stonehenge. The Largest Ball of Twine in Cawker City, Kansas . . . or is it in Darwin, Minnesota? Roadside attractions are the staples of the American road trip. Many are slowly disappearing from our highways and byways. Are they culture or kitsch? Are their creators artists or innovators? Listeners are invited along for the ride to decide for themselves.

The same stories you enjoy on the air are now better than ever on audio CDs called NPR Road Trips. These CDs make for easy listening; plus they are educational and entertaining. Family Motor Coaching
