Pcs : Ogre Battle: Official Secrets and Solutions Strategy Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ogre Battle: Official Secrets and Solutions Strategy Guide:

5 of 5 people found the following review helpful. Huh? Did we read the same guide? By A Customer I got this guide after I had beaten Ogre Battle already w/ max reputation and high alignment/charisma (which isn't hard to do and there is certainly no secret to achieving) expecting to find information on all the secret treasures that the documentation that came with the game hinted at. Instead, this guide basically regurgitates all the information on the huge item sheet (which isn't at all helpful) and doesn't reveal anything really secret. The only useful information it provides is the stats/recruitments of the various classes/species and the locations of treasures/hidden towns on the maps (though most of which can be found easily w/o the guide). All in all this is a mediocre strategy guide as far as prima guides go and I wouldn't recommend buying it since you can find all the info on classes and treasures at webpages. You might as well save your money for a more worthwhile guide. The lack of color and the "Ogre Battle

Gallery" that seemed like a pathetic attempt to make up for this lack of color bumped this from 3 to 2 stars. 2 of 2 people found the following review helpful. Disappointing
By Nathan Bigler
This guide really is not very well done. It's full of mistakes and typos, the information is inconsistent throughout the book, the maps are cut down some, it's just not well organized. If you're looking for details about managing your troops, weapons and items, and general character information, this is NOT the book for you. I also found the strategy suggestions useless.
5 of 5 people found the following review helpful. Playstation!!
By A Customer
If your one of the 2 people left in the world who somehow managed to get the Super Nintendo version of the game, keep in mind this book is for the playstation version. I'll also say the book is fairly unhelpfull. I dont suggest you buy it.

The evil Zeteginan Empire has had a stranglehold over Zenobia for nearly a quarter of a century. Overthrow the nefarious empire with: A step-by-step walkthrough of your entire journey Skull-crushing tips for destroying the Zeteginan forces Complete stats on all Tarot cards, secret items, and weapons Bring justice and compassion back to Zenobia
Ogre Battle: Official Secrets Solutions lead you to victory!
