Not even the "Mensa" books are relatively easy.By Sue Morris @ Kid Lit ReviewsIf you are looking for difficult, challenging, hard to break Sudoku puzzles for get this book. It claims to be challenging but the puzzles can be quickly completed without much note taking or brain wracking.If you really want a truly difficult Sudoku book, get the Nasty Sudoku puzzles books one through four. Each book gets harder and even book one will keep you working hard at the answer. I have been through the Nasty Sudoku books twice and working on my third time and have yet been able to complete every puzzle.
