What is this ONSUG, and why you should be listening!!!By wayne boodyI have been listening to The Overnightscape Underground since 2010, when I would drive around all night on my paper route, and get lost in its "ramplings". This is the ULTIMATE companion piece to this web site, the most comprehensive and unique mix of audio on the Internet. It is more than podcasting; it's a celebration of all kinds of audio -- monologues, old radio shows, random clips glued together to make something new, and so much more! You will get lost in the minds and articulations of these hosts from all over the world.All the hosts of ONSUG get their own dedicated sections to their shows, and each show has it's on box that you can tick off as you listen. If you're a casual listener, or you've yet to discover this 100% FREE site on your own, this is a perfect guide to own and keep close every time you go to The Overnightscape Underground (onsug.com).4 of 4 people found the following review helpful. When I found Onslug, I found a friend. This book is a guide to his world.By Debbie K. BennettThis one-of-a-kind guide to the Onslug is fun for a number of reasons: firstly, it's a guide to the show and the underground shows as well. Secondly, it's packed with information about how Frank got started, I'm realizing only now that Frank is an internet pioneer in the department of audio. His work will be celebrated for some time to come because of it's sheer volume and the fact that he continually cross-referenced and thought so far ahead.The book is simply, "good times". I don't know Frank, but Frank is my friend, thanks to Onslug.

Since 2003, Frank Edward Nora has been broadcasting his unique brand of lively, messy, stream-of-consciousness monologues to a small (but dedicated) Internet listening audience. Each episode is a pleasantly deranged ramble through the mysteries and pleasures of life, pop culture, current events, weirdness, technology, New York City, food, beverages, cartoons, conspiracy theories, childhood memories, New Jersey, coffee, the occult, Walt Disney World, vegetarianism, Star Wars, pinball, popcorn, Japan, mass transit, candy, video games, time travel, The Beatles, virtual reality, cigars, television, whiskey, and everything in-between. In 2009, Frank welcomed in a diverse group of new hosts, to create The Overnightscape Underground (Onslug for short) a podcast network starring dozens of hosts from all over the U.S. and the world, each with their own unique style. There are new Onslug shows just about every day. Currently (May 2015) there are 6,455 tracks, totaling over 8.8 months of audio. Onslug Guide provides you a list of every show in the archive - an essential resource on your journey into the amazing audio universe of Onslug!
