Johannes Brahms, Felix Mendelssohn, Robert Schumann, Classical Piano Sheet Music : Organ Works (Dover Music for Organ) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Organ Works (Dover Music for Organ):

0 of 0 people found the following review helpful. Good stuff By Tom Izzo Clean, precise, easy to read with a good price. 0 of 0 people found the following review helpful. Five Stars By frankie127 As described 0 of 0 people found the following review helpful. Great price, hard to read By clamarama This is a great collection for the price. In addition to the pieces listed in the description, it includes the Mendelssohn Preludes and Fugues and the Brahms Prelude/Fugue on O Traurigkeit and the Fugue in a-flat minor. Many of the Brahms preludes in this edition have long passages in alto clef. I find the Mendelssohn pieces very difficult to read - the notes are crammed very close together. A movement of one of the Mendelssohn sonatas, for example, is only one page in this book, but is nearly three pages in another edition

I own. The benefit of this, of course, is that there are fewer page turns, but Mendelssohn's writing can be so dense to begin with - I really find it hard to manage with this book. (I haven't had this problem with the Brahms or Schumann pieces, though.) A fine book if you're on a limited budget and can read alto clef or are willing to learn. It's worth the money just for the Brahms and Schumann. I've owned it for nearly 10 years and it has held up well.

When Brahms, Mendelssohn, and Schumann composed for the organ, all three of these great Romantics turned for inspiration to the musical style of the late Baroque period, especially the music of Johann Sebastian Bach. Schumann's only compositions for organ were his Six Fugues on the Name BACH. And Brahms and Mendelssohn both emulated late Baroque style with considerable success when they composed for the organ. Included here are Brahms's beautiful Eleven Choral Preludes and Mendelssohn's Six Sonatas, basic repertoire works for every organist, as well as the Mendelssohn Three Preludes and Fugues almost as well known. Now these and other fine pieces are presented in this convenient volume, all reprinted from the authoritative Breitkopf Hrtel editions: Johannes Brahms: Two Preludes and Fugues; Fugue in A-flat Minor; Chorale Prelude and Fugue on "O Traurigkeit, o Herzeleid"; Eleven Chorale Preludes, Op. 122. Felix Mendelssohn: Three Preludes and Fugues, Op. 37; Six Sonatas, Op. 65. Robert Schumann: Six Fugues on the Name BACH, Op. 60.
